YEE QIAN HUI (ZEN YEE)

SOFTWARE DEVELOPER

Email: qhui.yee@gmail.com | **Mobile**: +6016 4461314 | **Location**: Kuala Lumpur

Portfolio: https://zen-portfolio-v2.vercel.app/

SKILLS:

Technical: React, JavaScript, MySQL, PostgreSQL, Node.js, Express.js, HTML, CSS, Bootstrap, jQuery
Language: English, Malay, Mandarin, Cantonese

WORK EXPERIENCE:

Software Developer | Impact Business Solutions Sdn. Bhd.
Feb 2025 – Present

- Develop Node.js APIs and microservices to integrate data from multiple sources and transform it into platform-compatible formats.
- Debug frontend and API integration issues by inspecting network requests and server responses.
- Implement software POCs and interactive demonstrations for prospective clients and exhibitions.
- Configure interactive dashboards using a low-code platform and built-in 3D engine based on UI/UX designs.
- Prepare and demonstrate Digital Twin solutions at ASCN, SCEKL and IDECS 2025 and 2026.

Master Data Maintenance (MDM) Analyst | Steelcase Office Solutions (Malaysia) Sdn. Bhd.
May 2023 – Jan 2025

- Managed and validated customer, vendor and material master data in SAP, ensuring data accuracy, consistency and integrity.
- Developed and maintained Standard Operating Procedures (SOPs) to standardize workflows and improve process consistency.
- Developed VBA automation scripts to compile, validate and transfer data from multiple request forms into SAP, reducing manual effort and data-entry errors.

Mechanical Design Engineer | Greatech Technology Berhad
Nov 2022 – May 2023

- Designed CAD models and engineering drawings for custom machinery and automated manufacturing lines, ensuring compliance with engineering and manufacturing requirements.
- Translated customer requirements into technical design specifications and mechanical solutions.

Project Intern | Malaysia Airlines Berhad (MAB)
Aug 2021 – October 2021

- Designed and developed data input forms for a flight safety audit project, focusing on usability, data accuracy and error prevention.
- Assisted in frontend and database integration to facilitate data collection and storage.
- Participated in usability testing and incorporated feedback to improve form functionality and user experience.

EDUCATION:

Bachelor's Degree of Manufacturing Engineering with Management | Universiti Sains Malaysia
2018-2022 | CGPA 3.61

- Academic exposure to machine vision, robotics and artificial intelligence, including engineering applications and automation.
